GPT-4o-mini | functional reconstruction

Observed · Candidate · Prior-only / U

Conceptual paths and evidence links, not recovered physical wiring.

Additional evidence / limits (not execution stages)

Serving evidence

Repeat stability
Cache/drafting signatures tested

P08–P10 / P16

Interface

16,393-token input cap
Deployment fact, not model size

L1 · P01/P05

Quantitative boundary - not an execution stage

Width unresolved by top-5 access; depth unresolved by serving confounds.

U · P03/P07 · next experiments in the boundary ledger
